AI Resume Summary

SURIEYAA S — Data Analyst &ML; Engineering surieyaa.s@gmail.com |+91 9042126612 | linkedin.com/in/surieyaa-s | github.com/Surieyaa PROJECTS AI & Data Science Engineering specializing in end-to-end ML pipelines — from data preprocessing and feature engineering through model deployment. Repo | Live WORK EXPERIENCE InternPe Jun 2025 – Jul 2025 • Developed and optimised 15+ Python programs, strengthening proficiency in data structures, algorithms, functions, file handling. NSIC, Chennai Jan 2025 – Feb 2025 • Executed end-to-end data workflows — preprocessing, exploratory analysis, and ML model implementation — on real- world industry datasets. Python Programming Intern Data Science Intern PROFESSIONAL SUMMARY SURIEYAA S B.Tech in Artificial Intelligence & Data Science - CGPA 8.45 HSC – Computer Science Stream - 80% Dhaanish Ahmed College of Engineering, Chennai St.Mary's Matric.

AI-Generated HR Questions

- Tell me about yourself and what draws you to this role.
- Describe a challenging project you worked on and how you handled obstacles.
- How do you prioritize tasks when working under tight deadlines?
- Tell me about a time you disagreed with a teammate. How was it resolved?

AI-Generated Technical Questions

- How would you handle an imbalanced dataset?
- Explain the bias-variance tradeoff.
- Walk me through how you'd validate a model before deployment.
- Explain the difference between a list and a tuple in Python.

- What are Python decorators and when would you use one?
- How does Python's garbage collection work?
